🚧 💧 🪠 **Swan Meadows Utility Replacement Project**

Update: November 10, 2026

The City of Aberdeen is moving forward with utility improvements in the Swan Meadows neighborhood. As part of this project, existing water and sewer services will be replaced.

Here's what residents can expect:

💧 **Water Service Replacement**

- New water service laterals will generally extend to within approximately 5 feet of each home.
- If an existing water meter is located closer than 5 feet to the home, the new service will be extended to the meter.

🚧 **Sewer Service Replacement**

- New sewer laterals will generally extend to within approximately 5 feet of each home.
- If an existing sewer cleanout is located closer than 5 feet to the home, the new lateral will typically extend to the existing cleanout.

🪠 **Additional Utility Work**

- Existing water mains will be abandoned in place.
- Existing sewer mains will be abandoned in place.
- Existing fire hydrants and their pipe connections will be removed back to the isolation valve. Any remaining pipe connection will be capped and abandoned in place.
- We appreciate the patience and cooperation of Swan Meadows residents as this important infrastructure improvement project moves forward.
- Thank you for your continued support as we work to maintain and improve Aberdeen's water and sewer infrastructure!

⭐ For questions or more details, please contact the Swan Meadows Project Engineer - **Parley Hess** at **phess@aberdeenmd.gov** or **(410) 322-9615** ⭐
