CITY OF CLARKSBURG

Updates from City Manager, Tiffany Fell

CKB's New Terminal Opening Was a Huge Success:

Monday marked a significant milestone for Clarksburg and North Central West Virginia as we celebrated the grand opening of the new terminal at the North Central West Virginia Airport (CKB). This investment represents far more than a new facility—it is a major step forward in our region's continued growth and economic development.

A modern airport strengthens our ability to attract businesses, visitors, investment, and new opportunities. Improved infrastructure and connectivity make North Central West Virginia an even stronger place to live, work, visit, and do business. Projects of this magnitude help position our communities

to compete for future development while creating a welcoming gateway to our region.

The new terminal also has the potential to create a lasting impact well beyond the airport itself. Increased connectivity can support local employers, encourage tourism, strengthen development efforts, and introduce more people to everything

our region has to offer. Investments such as this send a strong message that North Central West Virginia is growing and prepared for the opportunities ahead.

The new CKB terminal demonstrates the importance of regional cooperation and a shared commitment to our future. Monday was a celebration of years of planning and hard work, but it was also the beginning of an exciting new chapter. This is a tremendous step forward for our region.

STAY CONNECTED
