UNSAFE WATER ALERT

City of San Luis Obispo water within the northeastern portion of the City is possibly contaminated with an unknown substance.

DO NOT DRINK YOUR WATER

Failure to follow this advisory could result in illness.

On the night of November 22, 2026, city staff received a tank intrusion alarm at a drinking water storage tank, indicating trespass and possible tampering, and causing concerns that an unknown substance may have been introduced to the drinking water supplied by the City of San Luis Obispo. Due to this concern, the California State Division of Drinking Water, San Luis Obispo County Health Department, and the City of San Luis Obispo Public Works and Utilities Department are advising residents in the impacted area (refer to attached address list and map) of the City of San Luis Obispo to **NOT USE THE TAP WATER FOR DRINKING AND COOKING UNTIL FURTHER NOTICE**.

Staff immediately drained the water tank and surrounding water lines to remove any potentially contaminated materials. Residents in the area may notice discoloration of water due to large amounts of line flushing. **We expect to resolve the problem within 72 hours.**
