CAUTION: This message is from an EXTERNAL SENDER - be CAUTIOUS, particularly with links and attachments.

To whom it may concern:

I have attended several city council meetings, but do not feel that the council has taken our complaints or ideas on mitigation seriously. (And why are we always last on the agenda?)

I live at 491 Grove St. Currently with Carter Ave undergoing road work, movement on our street is slow, it is wonderful. My concern is that the city, developers, and LA county is not seeing the effect of reopening Grove St to traffic which will come not only from the Meadows when completed, but also from the neighboring communities to the north and west. People use Grove St. to zoom down and take Fairview over to Michillinda. They have no regard for the speed limit or others on the road. I have been hit on the road when two cars try to squeeze by with two cars parked on the street. People have driven on my yard and thrown garbage in my yard. Additionally MANY people walk this street with no sidewalks, it is an accident waiting to happen.

There has been a proposal to move the entrance to Bailey Canyon park over to Lima Ave. which is a much wider street and there are NO houses in the immediate egress point. This would allow Grove St. to be closed off to traffic heading south and solve all these issues. Please consider this before someone is injured.

Sincerely.

Tudy Hodgman Magnuson
