Set Target Recovery Rate for the Project (optional)

Target Recovery Rate

This tool is great for projects that want to set the recovery bar even higher. Green Halo automatically defaults to jurisdictional minimum requirements to comply with local ordinances. With this feature, projects attempting to qualify for LEED points or meet company recovery policies may now set higher target recovery rates. This function is completely optional and will not affect or override any local ordinance which takes precedence.

Materials List

Select unit of measure for entering data ☐ cubic yards ☒ tons

Materials	Reuse	Recycle	Dispose
Mixed C & D - Select Mixed C&D if you are commingling multiple non-hazardous materials into one bin, box, or truck. Note: Commingling of multiple materials to be processed at registered facilities does not guarantee you will meet the recovery requirements. To ensure you comply with this jurisdiction's recovery requirements it's highly recommended that recyclable and/or reusable materials be source separated.			
Mixed C & D Debris (Mixed debris that is not source separated, but can be recycled must be brought to an authorized registered facility.)	N/A	5 tons	N/A
Source Separated Materials - Please identify any recyclable materials you will separate on-site for recycling. Note: Separating any of the recyclable materials listed below from your Mixed C&D as clean materials will increase your recycling rate and your chances of complying with this jurisdiction's recovery requirements.			
Appliances & Equipment (All non-functional appliances, HVAC units, air handlers and restaurant equipment *freon must be evacuated*)	 tons	 tons	N/A
Asphalt - Pavement & Grinding (Pavement and asphalt grindings. *EXCLUDES roofing materials*)	 tons	 tons	N/A
Asphalt - Roofing (Built up, torched down, and asphalt shingles. *For untreated wood shingles select "wood-clean". For foam roof select "Mixed C&D Debris".*)	N/A	 tons	N/A
Bricks, Masonry & Stone Products (Bricks, masonry, and stone products, including tile. *EXCLUDES ceramics*)	 tons	 tons	N/A

Hauling, Trucking, Deconstruction, or Demolition Service

☐ **Debris Box/Roll-Off Service:** I will use a Debris Box/Roll-Off service for hauling my debris.

I will be Self Hauling to an Approved Recycling Facility

☒ **Self Haul:** I will haul away the materials in accordance with this Jurisdiction's self haul rules and regulations.

☒  **Self Haul Guidelines**

Self haul is allowed. Contractors may haul their own materials. You must ensure that all materials are recycled and must provide receipts or reports. Receipts and reports must be from the facilities used, not from the hauler. Receipts and reports must include material weight, type and how materials were processed.

**You Still Need To Submit Your Project for Approval By This Jurisdiction. Your Estimated Recovery Rate for this project is well above the requirements for this jurisdiction.**
Thank you for working with Green Halo to make the world a greener place.
Project Notes and Comments: (optional) Please list any notes and comments you would like to communicate to the jurisdiction that are relevant to this project.

Read the Terms and Conditions
WMP Forms. Applicants for building or demolition permits valued at more than fifty thousand dollars shall complete and submit a waste management plan ("WMP") on a form approved by the waste management plan compliance official. Applicants who certify that they have employed the services of a contractor holding a valid contract and permit under [Chapter 8.12](#) shall be exempt from the filing of a WMP. A completed WMP shall indicate all of the following:
The estimated volume or weight of C&D material or debris, by material type, to be generated;
The maximum volume or weight of such materials that can be feasibly be diverted via reuse or recycling;
The vendor or facility that the C&D applicant proposes to use to collect or receive that material;
The estimated volume or weight of C&D materials that will be sent to a disposal site; and
The estimated volume or weight of inert materials to be sent to an inert disposal facility.
