Subject: Dock project

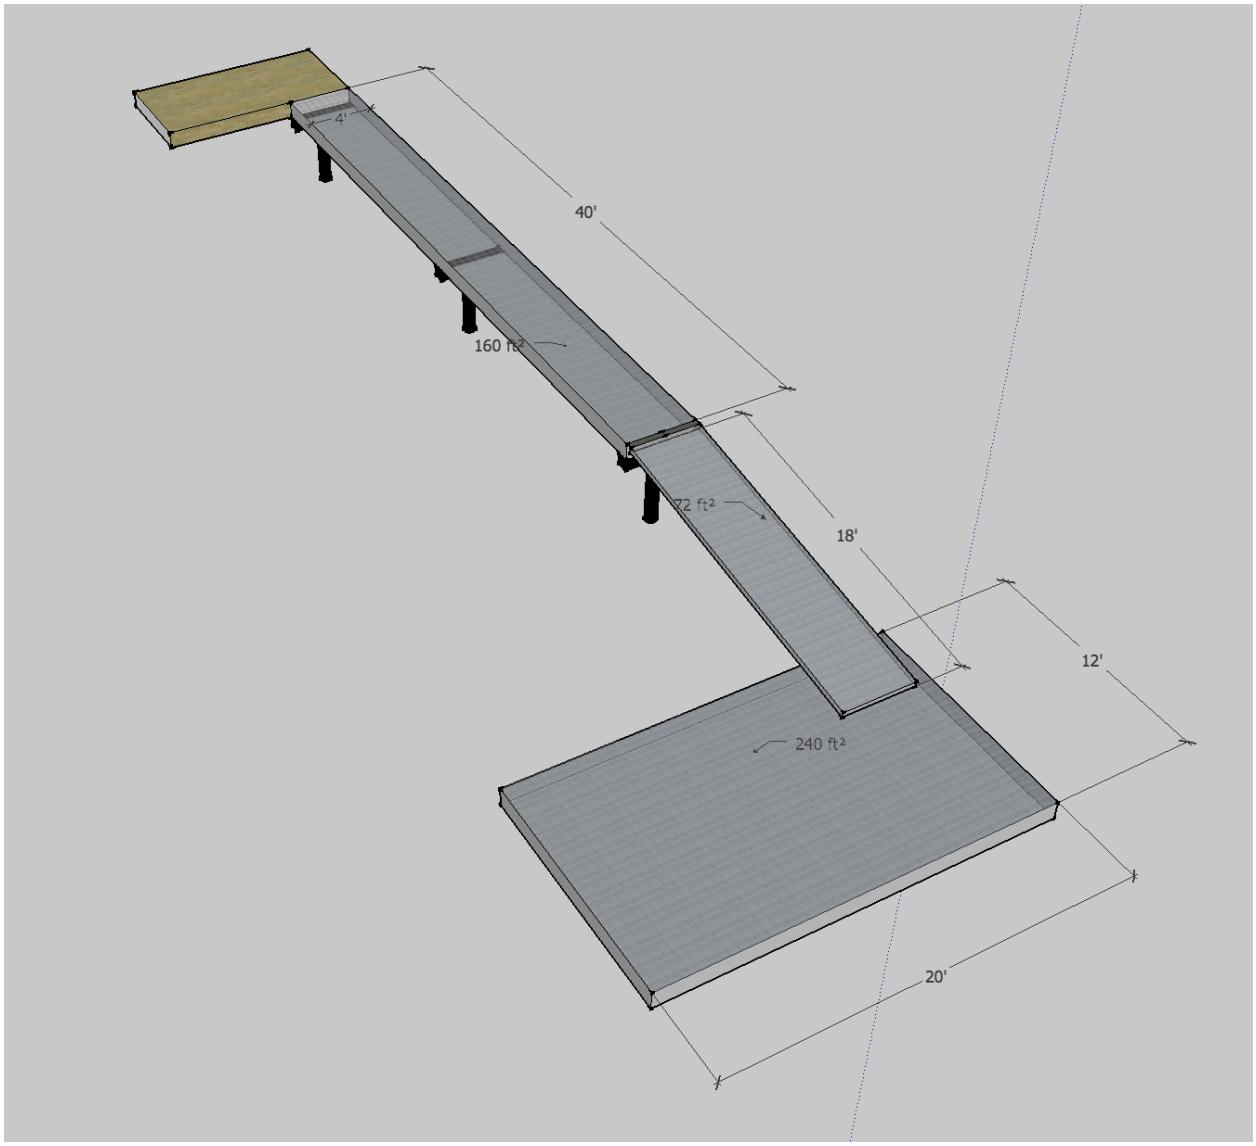

Hi Quinn
Please see attached sketches.

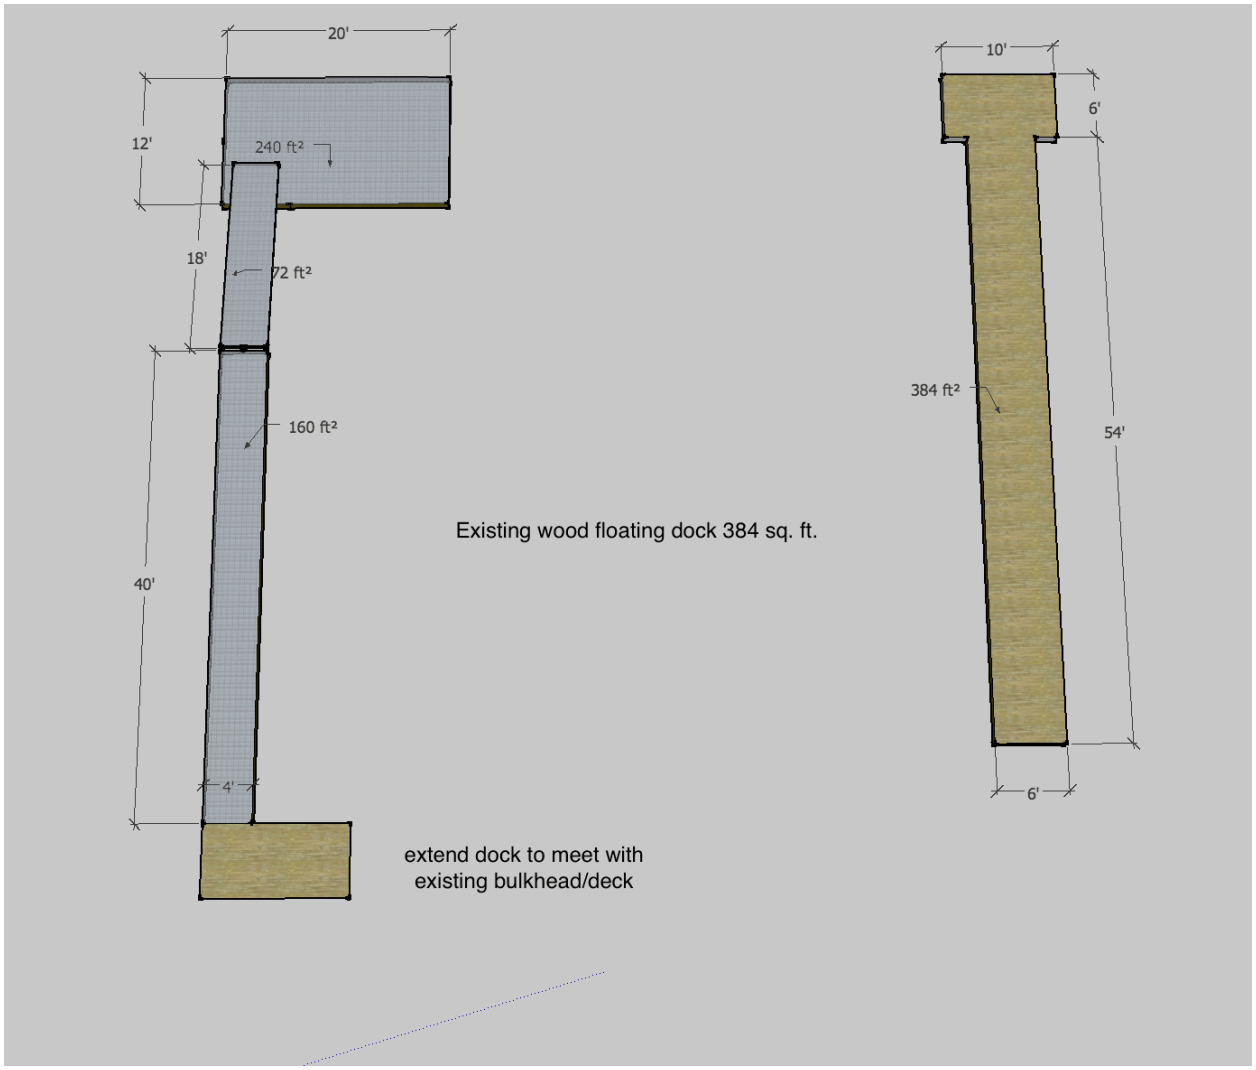

Here is a similar Sq. Ft. Dock design that you might like.

Elevated 4' wide aluminum walkway on steel pilings, 4' wide aluminum ramp and 12' x 20' modular float.
You will get nice stability with 12' wide, the length can be customized from 20' +
This type of dock is around $70k
Let me know your thoughts, I can get going on permitting asap.

thanks

Dan
