# CITY CONNECT

## Your Voice Matters: ICIP Planning and Public Comment is Here

The City's Infrastructure Capital Improvement Plan (ICIP) process is underway, and the community is encouraged to participate. Residents are invited to attend one of the upcoming public meetings; if you're unable to attend, comments may be submitted by email to talavarez@torcnm.gov or through the online comment form at torcnm.gov/ICIP, which can also be accessed by scanning the QR code to the left.

The ICIP helps prioritize funding for essential infrastructure projects such as streets, utilities, public facilities, and quality-of-life improvements. Community input is an important part of this process and helps guide the City's future infrastructure investments.

## Learn More: Critical Waterlines Infrastructure Project

To learn more about the City's Critical Waterlines infrastructure project, including its purpose, scope, and long-term benefits for Truth or Consequences, visit City Blueprint at torcnm.gov/critical.

## City Awarded $81,212 to Advance Outdoor Recreation Planning

The City has been awarded $81,212 through New Mexico's Trails+ Grant program, part of a historic statewide investment by the Outdoor Recreation Division of the New Mexico Economic Development Department to expand outdoor access and strengthen rural economies. The funding will support two key City-led planning efforts: a River Surf Wave Feasibility Study and the development of a Rotary Park Master Plan, both focused on enhancing recreational opportunities near Rotary Park. The feasibility study will examine the practicality and financial viability of a river wave feature through an analysis of river conditions, users, locations, and costs. The Rotary Park Master Plan will assess existing conditions and incorporate public input through meetings and City Commission presentations, resulting in concept plans, cost estimates, and architectural renderings. Together, these efforts will expand opportunities to enjoy the area's natural beauty, support health and wellness, and help position Truth or Consequences as a regional destination for outdoor recreation.

## Foch Street Project Update (Week of April 6):

Gas line work is now complete on Foch Street, and crews will continue pouring sidewalks and curb and gutter near Lee Belle Johnson, Adobe Insurance, and the Foch Apartments. Pedestrians are reminded to use designated walkways only to ensure everyone's safety. Thank you for your continued patience and support as this work moves forward.
