City Celebrates 20 Years of the Historic Hot Springs District

Truth or Consequences is more than a name—it's a place where history flows as freely as the geothermal waters that have drawn people here for centuries. As we mark twenty years since the Hot Springs Bathhouse and Commercial Historic District was added to the National Register of Historic Places, and celebrate 35 years of our downtown Post Office's own historic designation, we're reminded of the deep roots and vibrant spirit that define our city. Visit our city website to journey through the legacy.

City Advances Smart Water Meter Initiative with Landis & Gyr

Discover how Truth or Consequences is leading the way in smart water management! The City has partnered with Landis & Gyr to launch a cutting-edge Advanced Metering Infrastructure (AMI) initiative that promises greater efficiency, transparency, and sustainability in our water system. Ralph Edwards Park to Receive New Boat Ramp and Floating Dock

More progress is underway at Ralph Edwards Park! The City Commission has approved a contract for a new boat ramp and floating dock designed specifically for kayaks, paddleboards, and other non-motorized watercraft. With thoughtful coordination from multiple agencies and funding extended through 2026, this project marks a major step forward in enhancing river access and recreation. Learn more about the design, permitting process, and see concept images on our City Blueprint pages!

Sanitation Fleet Modernizes Amid Aging Equipment Challenges

Truth or Consequences is rolling out big changes to its sanitation fleet, retiring aging trucks like "Limpy" and embracing new technology to improve service and safety. With a new commercial dumpster truck on the way and fleet management software now in use, the Recycling & Waste Collection Center is stepping into a more efficient future.
