
The Yorktown Community Housing Board supports the proposed rezone of the 16.8-acre Foothill Street parcel from the R1-40 zone to the R-3 zone to facilitate the development of a 14-unit multi-family project.

The inclusion of two affordable housing units in the 14-unit project is strongly supported by the Housing Board, and we look forward to including those two units in the scope of units covered under Yorktown's current affordable housing law, and administered by us. We are also very supportive of this clustered plan based on the Comparative Analysis which shows less impervious areas and less disturbance, with more open space.

Sarah Wilson,
Chair, Yorktown Community Housing Board
